

NIPPON STEEL ENGINEERING CO., LTD. TECHNICAL REVIEW

Vol. 3

January 2012

Contents

| | |
|--|---|
| Preface | 1 |
| Technical Report | |
| Steel Plant Field | 1. Development of Center Porosity Reduction 2 ~Establishment of the internal quality improvement (center porosity reduction) technology of the continuous casted bloom~ Setsuo KITAKA, Yasuaki MIURA, Yukihiro MATSUOKA, Tetsuhiko KANDA, Tadashi SATO, Masaaki INOUE |
| | 2. Development of Strip Temperature Control System 7 Yasuo KUNIKATA |
| Environmental Facilities Field | 3. The application of biomass coke to commercial plants of shaft furnace type gasification and melting furnace.....13 ~Achievement of CO ₂ free process~ Tomo KASHIWABARA, Kaoru NISHIMOTO, Hirokazu TANAKA, Hirohisa KAJIYAMA, Yoshihiro ISHIDA, Morihiro OSADA |
| Energy Facilities Field | 4. Sewage sludge granulated and dried by J-COMBI system as an alternative coal energy19 ~a solution for the protection of global warming~ Hisao Tohma, Hajime Usui, Hisashi Tanaka, Yuichi Murata |
| | 5. Development of CO ₂ chemical absorption process25 ~Challenge at the lowest energy consumption in the world~ Tomohiro MIMURA, Mikihiro HAYASHI, Daisuke Hagi |
| Marine Engineering Field | 6. Challenge to Subsea Contractor31 – Dynamic Behavior Appraisal of Riser in Deep water – Hiroaki Hajota, Nobuyuki Hayashi, Tomohiro Matsubara, Junpei Ishikawa |
| Civil Engineering & Building Construction Field | 7. Development of original fittings (ANHT-type) for Hot Tapping41 ~Practical application of ANHT-type fitting~ Shigeaki AOYAGI, Kazutoshi SASAKI, Rie IKEDA, Masayoshi AKASAKA |
| | 8. Structural Design By Energy Balance-Based Seismic Resistant Design48 ~Introduction Of Design Realized Improvement Of Earthquake Performance And Economy~ Naoya Wakita, Tomoaki Matsukage, Kohei Higuchi, Hideji Nakamura |

Product Report

| | | |
|--|--|----|
| Steel Plant Field | 1. Construction Method of Dismantlement to Bricks enclosed by Refractory Containing Asbestos..... | 57 |
| | 2. Uniformly high-efficient coke cooling technology in world's largest CDQ | 59 |
| Environmental Facilities Field | 3. Effective Utilization of Domestic Waste Slag | 60 |
| | ~introduction of new application~ | |
| Energy Facilities Field | 4. CO ₂ Emission Reduction Technologies | 64 |
| Civil Engineering & Building Construction Field | 5. "Renovation method for water works" of NIPPON STEEL PIPELINE | 66 |
| | 6. Panel Bridge..... | 69 |
| | (Composite Girder Bridge with Steel Plate-Concrete Composite Deck) | |
| | 7. Unit Rubber Damper | 72 |
| | (Post Type Device for Earthquake and Wind Vibration) | |
